	SOURCE EVALUATIONS ARE DEFIN	NITIVE. APPRAISAL OF CONTENT IS TENTATIVE.	- ′ •
1. The The (1) (2) (3) (4) (6) (7)	Vocaen cooling tower. Main power hall. Chimney. Large building with three	ee ventilators, one steaming (5).	25X1
(11) (10) (8) (8)	new (red-lead painted) (Konin station. Very large sandpit with area about 15 acres. and (13) New construction cantilever cranes. (12)	g southeast. eway of sand under construction, with line of curving steel posts running along it. cranes and modern equipment. Depth about 80 ft., ons in steel, surrounded by a dozen very large 2) is approximately as shown in sketch 4. in	
(11) (10) (8) (8)	Inclined remp. Aerial buckstway running New construction: cause new (red-lead painted) of Komin station. Very large sandpit with area about 15 acres. and (13) New construction cantilever cranes. (12 grey painted steel with (13) is mainly in red-lead	g southeast. eway of sand under construction, with line of curving steel posts running along it. cranes and modern equipment. Depth about 80 ft., ons in steel. surrounded by a dosen very large	
(8) (9) (10) (11) (12)	Inclined remp. Aerial bucketway running New constructions cause new (red-lead painted) (Konin station. Very large sandpit with area about 15 acres. and (13) New construction cantilever cranes. (12 grey painted steel with (13) is mainly in red-le both about 40 - 50 ft. Railway track being fur	g southeast. eway of sand under construction, with line of curving steel posts running along it. cranes and modern equipment. Depth about 80 ft., ons in steel, surrounded by a dosen very large 2) is approximately as shown in sketch 4, in window-like apertures (not accurate in drawing).	
(8) (9) (10) (11) (12)	Inclined remp. Aerial bucketway running New construction: cause new (red-lead painted) (Konin station. Very large sandpit with area about 15 acres. and (13) New construction cantilever cranes. (12) grey painted steel with (13) is mainly in red-le both about 40 - 50 ft.	g southeast. eway of sand under construction, with line of curving steel posts running along it. cranes and modern equipment. Depth about 80 ft., ons in steel, surrounded by a dosen very large 2) is approximately as shown in sketch 4, in window-like apertures (not accurate in drawing). ead paint, roughly conical in shape. Height of	25 X
(8) (9) (10) (11) (12)	Inclined remp. Aerial bucketway running New constructions cause new (red-lead painted) (Konin station. Very large sandpit with area about 15 acres. and (13) New construction cantilever cranes. (12 grey painted steel with (13) is mainly in red-le both about 40 - 50 ft. Railway track being fur	g southeast. eway of sand under construction, with line of curving steel posts running along it. cranes and modern equipment. Depth about 80 ft., ons in steel, surrounded by a dosen very large 2) is approximately as shown in sketch 4, in window-like apertures (not accurate in drawing). ead paint, roughly conical in shape. Height of	
(8) (9) (10) (11) (12)	Inclined remp. Aerial bucketway running New constructions cause new (red-lead painted) (Konin station. Very large sandpit with area about 15 acres. and (13) New construction cantilever cranes. (12 grey painted steel with (13) is mainly in red-le both about 40 - 50 ft. Railway track being fur	g southeast. eway of sand under construction, with line of curving steel posts running along it. cranes and modern equipment.
